Behlen Holds Grand Opening of Boise Office

MERIDIAN, IDAHO – Behlen Building Systems held a grand opening celebration at their newly opened sales and engineering office on Thursday, August 12th. More than 40 people attended the open house including Behlen builders, suppliers, engineers, and others from the community. The new office is located at 2971 East Copper Point Drive in Meridian.

Behlen has had a Regional Sales Manager in Idaho for many years, along with several Behlen builders throughout the state.

However, this is the first office that's been established. At this time, there are three full time Behlen Partners in Progress (employees) working from this location: Regional Sales Manager - Tru Connealy; Western Region Sales Manager – Sheryl Cattau; and Engineer – Zach Walker. The intentions are to increase our staff of Customer Sales Representatives and Engineers in the near future.

Behlen builders, suppliers, team members, and others from the community attended the August 12th grand opening of the Boise sales and engineering office located in Meridian, Idaho. More than 40 people attended the event.

Behlen Building Systems is a metal building manufacturer that works through a nationwide network of builders, with a strong presence in the Northwest. Behlen supplies offices, dealerships, churches, schools, sports facilities, hangars, factories, retail stores, and agricultural buildings to the area. Behlen is the first metal building firm in the United States to achieve IAS AC472 Accreditation. The new office was opened to provide better customer responsiveness in the Western United States and offer dedicated sales and engineering expertise to builders. This is a first step in increasing our commitment to the region.
